The accounting policies, in all material respects, have been consistently applied by the Company and are consistent with those used in the previous year, except to the extent stated in Note 3 below.

III. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities as of the date of the financial statements and reported amounts of income and expenses during the period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from the estimates.

IV. Fixed Assets

Fixed assets are stated at cost of acquisition or construction or at revalued amounts less accumulated depreciation, amortization and impairment losses, if any.

V. Impairment of Fixed Assets:

The carrying amounts of the assets, except for inventories, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of the asset or its cash-generating unit exceeds its recoverable amount. Impairment losses, if any, are recognised in the income statement.

VI. Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.
